

RON CHAPMAN, MD, MPH  
Director & State Health Officer

State of California—Health and Human Services Agency  
**California Department of Public Health**

Northern California Drinking Water Field Operations Branch  
Monterey District

EDMUND G. BROWN JR.  
Governor

March 20, 2014

Mr. Larry Tierney  
District Facilities Manager  
CSP-Limekiln  
2211 Garden Road  
Monterey, CA 93940

Attention Mr. Tierney:

**CITATION NO. 02-05-14C-005-2710306-03**  
**CITATION FOR NITRATE MONITORING AND REPORTING VIOLATION FOR 2013**  
**CSP-LIMEKILN – WATER SYSTEM NO. 2710306**

Enclosed is a Citation issued to the CSP-Limekiln water system for failure to comply with requirements of Section 64432.1(a), Chapter 15, Title 22, of the California Code of Regulations. Specifically, the water system failed to collect and report a nitrate monitoring result from Well 01 during the 2013 calendar year.

The Citation consists of four sections: Violation, Background, Directives and Further Enforcement Actions. The Violation and Background sections describe the events leading up to the issuance of the Citation. The Directives section specifies required actions that must be implemented by the water system to return to compliance. The Further Enforcement Actions section describes penalties to be assessed for failure to comply with the Citation. No civil penalty is levied with the attached Citation.

Your water system will be billed at the Department's hourly rate for the time spent on issuing this Citation since this is an enforcement action for noncompliance with state regulations. The water system will receive a bill from our Fee Billing Unit in Sacramento. If you have any questions regarding this matter, please contact Shaminder Kler of my staff at (831) 655-6938 or me at (831) 655-6934.

Sincerely,

Jan R. Sweigert, P.E.  
District Engineer, Monterey District  
DRINKING WATER FIELD OPERATIONS BRANCH

cc (w/enclosures): Monterey County Environmental Health Department

STATE OF CALIFORNIA  
DEPARTMENT OF PUBLIC HEALTH

Date of Issuance: March 20, 2014

RE: CSP-Limekiln  
Water System No. 2710306

TO: Mr. Larry Tierney  
District Facilities Manager  
CSP-Limekiln  
2211 Garden Road  
Monterey, CA 93940

CITATION FOR NONCOMPLIANCE  
NITRATE MONITORING AND REPORTING VIOLATION FOR 2013

Chapter 4, Article 9, Section 116650 of the California Health and Safety Code (H&S Code), authorizes the issuance of a Citation for failure to comply with this Chapter (California Safe Drinking Water Act), or any regulation, standard, permit or order issued or adopted thereunder.

**Violation**

The California Department of Public Health, Drinking Water Field Operations Branch, (hereinafter "Department") hereby issues a Citation to the CSP-Limekiln water system for the following violation:

Failure to comply with monitoring requirements as specified in Section 64432.1(a), Chapter 15, Title 22, of the California Code of Regulations (CCR). Section 64432.1(a) specifies that all public water systems using groundwater shall monitor for nitrate annually.

The CSP-Limekiln water system failed to conduct nitrate monitoring of Well 01 and submit the analytical result electronically to the Department for the 2013 calendar year, resulting in a violation of the nitrate monitoring and reporting requirements for the 2013 calendar year for Well 01.

**Background**

CSP Limekiln is a transient non-community water system located in Big Sur, California that is part of the California State Parks system. The water system serves a transient population of approximately 200 persons through 20 service connections through a day use area and forty campsites, including two restroom facilities. It also provides domestic water for a small office building and one residential mobile home. The water system has one groundwater source designated as Well 01 (Primary Station Code: 2710306-002).

1 By electronic mail dated February 5, 2014, the Department notified the CSP-  
2 Limekiln water system that a nitrate analysis result for the raw water source,  
3 Well 01, for the calendar year 2013, had not been received by the  
4 Department. Mr. Marc Lewis, Water and Sewage Plant Superintendent for the  
5 CSP-Limekiln water system, confirmed by electronic mail on February 5,  
6 2014, that a nitrate sample was not collected during 2013 from Well 01. The  
7 CSP-Limekiln has electronically reported nitrate results of <1.0 mg/L from  
8 Well 01 for sampling conducted on February 12, 2014. Therefore, the CSP-  
9 Limekiln water system has complied with the annual nitrate monitoring and  
10 reporting requirements for 2014 for Well 01.

11  
12 Failure to collect and electronically report a nitrate sample result from Well 01  
13 for 2013 resulted in violation of nitrate monitoring and reporting requirements  
14 for the CSP-Limekiln water system for the calendar year of 2013 for Well 01.

15  
16 **Directives**

17  
18 The CSP-Limekiln water system is hereby directed to take the following  
19 actions:

- 20
- 21 1. Immediately cease and desist from failing to comply with Section  
22 64432.1(a), Chapter 15, Title 22, CCR.  
23
  - 24 2. Conduct public notification of the nitrate monitoring and reporting  
25 violation in conformance with Section 64463.7, Chapter 15, Title 22,  
26 CCR. The notification shall be completed in accordance with the  
27 following:

- Posting of the Public Notification in conspicuous places within the area served by the water system within thirty (30) days of receipt of this Citation. The Public Notification shall remain posted for a minimum of seven (7) consecutive days.

- By one of the following secondary methods to reach persons not likely to be reached by posting;

- By publication in a local newspaper or newsletter distributed to customers or by internet posting of the notice or by direct delivery to each customer served by the CSP-Limekiln water system. Notice by secondary method shall be conducted within thirty (30) days of receipt of this Citation. If the water system opts to issue the notice via internet website, the public notice shall remain posted for a minimum of seven (7) days. The CSP-Limekiln water system must determine which option will be used to conduct the secondary distribution of the notice and notify the Department of their decision no later than **April 4, 2014.**

3. Submit the Public Notification required by Directive No. 2 of this Citation to the Department for approval prior to distribution. A sample notice is enclosed (Attachment A) that may be used to fulfill the notification requirement. **The CSP-Limekiln water system must edit the wording of the sample notification as necessary.**

- 1           4. Proof of Notification must be provided to the Department by submitting  
2           copies of the notice posted and distributed to the customers, with the  
3           completed Proof of Notification form (Attachment B) to the Department  
4           **within ten (10) days following issuance of the Public Notification.**

5  
6           All responses to the directives contained in this Citation shall be submitted to:

7  
8                     Jan R. Sweigert, P.E.  
9                     District Engineer, Monterey District  
10                    California Department of Public Health  
11                    Drinking Water Field Operations Branch  
12                    1 Lower Ragsdale, Building 1, Suite 120  
13                    Monterey, CA 93940

14           **Further Enforcement Actions**

15           Division 104, Part 12, Chapter 4, (commencing with section 116270) of the  
16           California Health and Safety Code authorizes the Department to: issue  
17           additional citations with assessment of penalties if a public water system  
18           continues to fail to correct a violation identified in a citation; take action to  
19           suspend or revoke a permit that has been issued to a public water system if  
20           the system has violated applicable law or regulations or has failed to comply  
21           with orders of the Department; and petition the superior court to take various  
22           enforcement measures against a public water system that has failed to  
23           comply with orders of the Department. By issuance of this Citation, the  
24           Department does not waive any right to take additional or alternative  
25           enforcement action against the System including, but not limited to, assessment  
26           of penalties as authorized by law.  
27

Failure to comply with any provision or directive of this Citation may result in the Department imposing penalties.

3/20/2014

## Instructions for Tier 3 Monitoring Violations Annual Notice Template

### Template Attached

Since most monitoring violations are included in Tier 3, you must provide public notice to persons served within one year after you learn of the violation [California Code of Regulations, Title 22, Chapter 15, Section 64463.7(b)]. Multiple monitoring violations can be serious. **Each water system required to give public notice must submit the notice to the Department for approval prior to distribution or posting, unless otherwise directed by the Department [64463(b)].**

### Notification Methods

You must use the methods summarized in the table below to deliver the notice to consumers. If you mail, post, or hand deliver, print your notice on letterhead, if available.

<i>If You Are a...</i>	<i>You Must Notify Consumers by...</i>	<i>...and By One or More of the Following Methods to Reach Persons Not Likely to be Reached by the Previous Method...</i>
Community Water System [64463.7(c)(1)]	Mail or direct delivery <sup>(a)</sup>	Publication in a local newspaper
		Posting <sup>(b)</sup> in conspicuous public places served by the water system or on the Internet
		Delivery to community organizations
Non-Community Water System [64463.7(c)(2)]	Posting in conspicuous locations throughout the area served by the water system <sup>(b)</sup>	Publication in a local newspaper or newsletter distributed to customers
		Email message to employees or students
		Posting <sup>(b)</sup> on the Internet or intranet
		Direct delivery to each customer

(a) Notice must be distributed to each customer receiving a bill including those that provide their drinking water to others (e.g., schools or school systems, apartment building owners, or large private employers), and other service connections to which water is delivered by the water system.

(b) Notice must be posted in place for as long as the violation or occurrence continues, but in no case less than seven days.

The notice attached is appropriate for the methods described above, insertion in an annual notice, or included in the Consumer Confidence Report<sup>1</sup>. However, you may wish to modify it before using it for posting. If you do, you must still include all the required elements and leave the standard language for monitoring and testing

<sup>1</sup> CCR may be used as long as public notification timing and delivery requirements are met [64463.7(d)].

procedure violations and notification language in italics unchanged. This language is mandatory [64465].

You may need to modify the template for a notice for individual monitoring violations. The template presents violations in a table; however, you may write out an explanation for each violation if you wish. For any monitoring violation for volatile organic compounds (VOCs) or other groups, you may list the group name in the table, but you must provide the name of every chemical in the group on the notice (e.g., in a footnote). An example is shown in the table below.

<i>Contaminant</i>	<i>Required Sampling Frequency</i>	<i>Number of Samples Taken</i>	<i>When All Samples Should Have Been Taken</i>	<i>When Samples Were or Will Be Taken</i>
VOCs <sup>(a)</sup>	1 sample every 3 years	None	2002 – 2005	February 2006

(a) Benzene; Carbon Tetrachloride; 1,2-Dichlorobenzene; 1,4-Dichlorobenzene; 1,1-Dichloroethane; 1,2-Dichloroethane; 1,1-Dichloroethylene; cis-1,2-Dichloroethylene; trans-1,2-Dichloroethylene; Dichloromethane; 1,2-Dichloropropane; 1,3-Dichloropropane; Ethylbenzene; Methyl-*tert*-butyl ether; Monochlorobenzene; Styrene; 1,1,2,2-Tetrachloroethane; Tetrachloroethylene; Toluene; 1,2,4-Trichlorobenzene; 1,1,1-Trichloroethane; 1,1,2-Trichloroethane; Trichloroethylene; Trichlorofluoromethane; 1,1,2-Trichloro-1,2,2-Trifluoroethane; Vinyl Chloride; and Xylenes.

You may need to modify the notice if you had any monitoring violations for which monitoring later showed a maximum contaminant level or other violation. In such cases, you should refer to the public notice you issued at that time.

### **Multilingual Requirement**

Spanish. Each public notice must contain information in Spanish regarding (1) the importance of the notice or (2) contain a telephone number or address where Spanish-speaking residents may contact the water system to obtain a translated copy of the public notice or assistance in Spanish.

Non-English Speaking Groups Other than Spanish-Speaking. For each group that exceeds 1,000 residents or 10% of the residents in the community served, whichever is less, the public notice must (1) contain information in the appropriate language(s) regarding the importance of the notice or (2) contain a telephone number or address where such residents may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.

### **Population Served**

Make sure it is clear who is served by your water system -- you may need to list the areas you serve.

## **Corrective Actions**

In your notice, describe corrective actions you took or are taking. Listed below are some steps commonly taken by water systems with monitoring violations. Choose the appropriate language, or develop your own:

- “We have since taken the required samples, as described in the last column of the table above. The samples showed we are meeting drinking water standards.”
- “We have since taken the required samples, as described in the last column of the table above. The sample for [contaminant] exceeded the limit. [Describe corrective action; use information from public notice prepared for violating the limit.]”
- “We plan to take the required samples soon, as described in the last column of the table above.”

## **After Issuing the Notice**

Send a copy of each type of notice and a certification that you have met all the public notice requirements to the Department within ten days after you issue the notice [64469(d)]. You should also issue a follow-up notice in addition to meeting any repeat notice requirements the Department sets.

It is recommended that you notify health professionals in the area of the violation. People may call their doctors with questions about how the violation may affect their health, and the doctors should have the information they need to respond appropriately.

It is a good idea to issue a “problem corrected” notice when the violation is resolved.

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

**Nitrate Monitoring & Reporting Requirements Not Met for  
CSP-Limekiln – Water System #2710306**

Our water system failed to monitor as required for nitrate during calendar year 2013 and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the calendar year of 2013, we did not collect and report a nitrate sample result from Well 01 and therefore, cannot be sure of the quality of our drinking water during that time. In response, a nitrate sample was collected on February 12, 2014 from Well 01. The sampling result of <1 mg/L shows that the nitrate level is less than the maximum contaminant level of 45 mg/L and therefore, meets compliance with nitrate monitoring and reporting requirements for calendar year 2014.*

**What should I do?**

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

<i>Contaminant</i>	<i>Required Sampling Frequency</i>	<i>Number of Samples Taken</i>	<i>When All Samples Should Have Been Taken</i>	<i>When Samples Were or Will Be Taken</i>
Nitrate	Once per calendar year	0	January 1, 2013 through December 31, 2013	One sample collected on February 12, 2014

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

### **What happened? What is being done?**

[Describe corrective action].

For more information, please contact [name of contact] at [phone number] or [mailing address].

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.*

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.

This notice is being sent to you by CSP-Limekiln water system.
